To be the part of a team of hi-caliber professionals in a progressive, transnational organization, thus sharpening my technical and analytical skills, while at the same time, contributing my best to the overall development of the organization

- Young, energetic and result-oriented **6.4 years** of IT experience in **web application Development**.
- **4.5 years** of working in **Java script** for developing web applications and **1.6 years** in **React and Redux**
- Extensive experience working in an **Agile development environment**
- Profound knowledge of **JavaScript framework (REACT, REDUX)** and **.NET** and **related technologies** such as Sitecore 8.0, C#, asp.net (4.5).
- Developing web applications and framework from the scratch for desktop and mobile.
- Exposure of **UML, SOLID principles and Design patterns**
- Deep understanding of technology with focus on delivering business solutions. Proven ability to be a strong professional with the sound knowledge of the new technologies and advanced applications
- Outstanding communication skills; interfaces effectively with upper management, vendors, peers and users

COMPETENCY MATRIX

- Advance OO JavaScript
- .Net Application Development
- Application Performance Testing
- Technical Troubleshooting
- Commitment towards work
- Sincerity and Self-Confidence
- Good team player

TECHNICAL PROFICIENCY

- **Web technologies:** **REACTJS - REDUX**, Handlebars, Bootstrap, Advance JavaScript, HTML5, CSS3, SASS, LESS, Media Queries, Webpack, Map, Gulp, SVN, JIRA, Confluence, Developer tools of Chrome.
- **IDEs:** Visual Studio Code, Sublime text, Brackets.
- **Code Version Control Tools:** GIT, SVN, JIRA, GitHub, bamboo etc.

FAMILIAR TECHNOLOGY

- **Core technologies:** OOP, Client-server/multi-tier apps, Agile methodology (scrum) C# ASP.NET(4.5), MVC.
- **Enterprise Architects:** UML, Design Patterns and SOLID principles
- **Performance and Scalability:** CLR Profiler, SQL Profiler, YSlow, ANTS profiler.
- **Productivity Tools:** Version Control Systems (SVN/ SourceSafe), Enterprise Architect EA, ReSharper, FxCop

CAREER HIGHLIGHTS

- Significant Achiever Award for smart working development in the year 2013-2014
- Unstoppable Award in every sub sequent quarter.

PROFESSIONAL EXPERIENCE

Sapient Nitro, (<http://www.sapientnitro.com/>) Bangalore
Senior Associate L2 (Reporting to Project Manager)

Sept'2016 - Sept'2018

Key Deliverables:

- Designed and coded application components in an Agile environment utilizing a Scrum approach
- Requirement Analysis, Designing and Developing Component for Sitecore CMS Written data transfer of multiple files using the NodeJS modules.
- Car model-based component developments.
- Car models' details maintenance with the SQL DB.
- Debugging implementation using React chrome inspector.
- Writing Confluence page for the implemented feature
- Making decisions on technical issues.

MINDTREE. LTD, (<http://www.mindtree.com/>) Bangalore
Module Lead Engineer (Reporting to Project Manager)

May'2012 - Aug'2016

Key Deliverables:

- Designed and coded application components in an Agile environment utilizing a Scrum approach
- Writing Complex Use Case, Involved in Technical Architecture design, Creating Domain Model, Data Model
- Developed intricate business logics, stored procedures and T-SQL scripts
- Participated in and lead sprint review iteration demos for product managers

PROJECTS EXECUTED

Summary:

Client: Hyunadi (Nov'16 - Sept'18)
Technologies used: REACT JS - Redux, ES6, NodeJS, Webpack, OOPS, HTML5, CSS3, SCSS
Role: Senior Developer
Duration: Nov'16 - Sept'18
Team size: 12
Description: The development in this project involves design of an Account access and profile management using CMS (it consists of Login, Profile management, Car model Design, integrated with Sales force entity and Site alerts. Etc.,)

Responsibilities: Designed and coded application components in an Agile environment utilizing a Scrum approach
Requirement Analysis, Designing and Developing Component for Sitecore CMS Written data transfer of multiple files using the NodeJS modules.
Car model-based component developments.
Car models' details maintenance with the SQL DB.
Writing Confluence page for the implemented feature

Client: Proctor & Gamble (Jun'12 - Aug'16)
Platform used: Windows 2008
Technologies used: ASP.NET 4.5, WCF-Restful service, SQL 2008R2, MVC4.0, SSIS, TFS (version control)
Role: Module Lead
Duration: May'14 - Aug'16
Team size: 6
Description: The development in this account involves design of websites for various platforms including mobile (Android and IOS) and 3rd party clients (Hyper media) marketed under P&G group
Responsibilities: Part of requirement collection
Creations of mock-ups and prototypes
Use cases document writing
Work delegation to the team based on the target and monitoring the same
Providing solutions to challenging use cases
Making decisions on technical issues
Responding and resolving the issues faced by clients after deployment
Code review

EDUCATIONAL CREDENTIALS

- **BE (Computer Science and Engineering)** from Sri Jayachamarajendra college of Eng (SJCE) Evening in 2011, Mysore., Visweswariah Technological University, Belgaum (VTU).
- **Diploma in Computer Science & Engineering**, from the Board of Technical Education Karnataka in 2005.
